

Fuelling SDG Futures: Inspiring September-October Activities!

Pre-Primary: Exploring Affordable and Clean Energy (SDG-7)

1. **Light Savers in Action!**
Students embark on a mission to check if lights and fans are turned off when not in use, learning the importance of energy conservation.
2. **Solar Lanterns Shine Bright!**
Crafting small lanterns from newspapers and illuminating them with solar-based candles, students explore clean energy solutions.

Grades I-IV: Championing Clean Water and Sanitation (SDG-6)

1. **Sanitation Superheroes!**
A captivating video on sanitation's impact on health, followed by an engaging questionnaire to test students' understanding of clean water and hygiene.
2. **Organic Rangoli Artistry!**
Creating vibrant Rangoli patterns with natural colours like dried flowers and corn flour promoting cleanliness and environmental awareness.

Grades V-VIII: Building Sustainable Cities and Communities (SDG-11)

1. **Windmill Wonders!**
Constructing and illuminating windmill models with energy-efficient LED lights, students discover the role of wind power in sustainable communities.
2. **Eco-City Blueprint!**
Students design and present their model of a sustainable city using recycled materials.

Grades IX-XII: Fostering Responsible Consumption and Production (SDG-12)

1. **"Festival of Lights, Smart Choices!"**
A thought-provoking discussion on efficient electricity use during Diwali and exploring alternatives like earthen lamps to celebrate sustainably.
2. **"Bright Ideas for Green Festivities!"**
Showcasing creative, eco-friendly solutions for Diwali celebrations, emphasizing responsible consumption and energy-saving practices.
